

From Post-its to presentation

—
We create compelling stories
and beautiful visuals

Seasoned pro of the conference circuit?

Or just agreed to your first
keynote speech? Your moment,
your presentation.

Let's make it amazing.

Getting to know you

We'll work in partnership with you.

We'll get to know your message, understand your audience, and learn how you like to present.

Telling your story

Presentations are about change
Changing people's beliefs,
behaviour or minds.

We'll transform your facts and
stats into a persuasive story
that makes change happen.
You deserve better than
bullet points.

Making it shine

We are experts in visual storytelling.

Why is this important? Because your brain processes visual information 60,000 times faster than text.

So we'll create stunning visuals that make an impact and drive your message home.

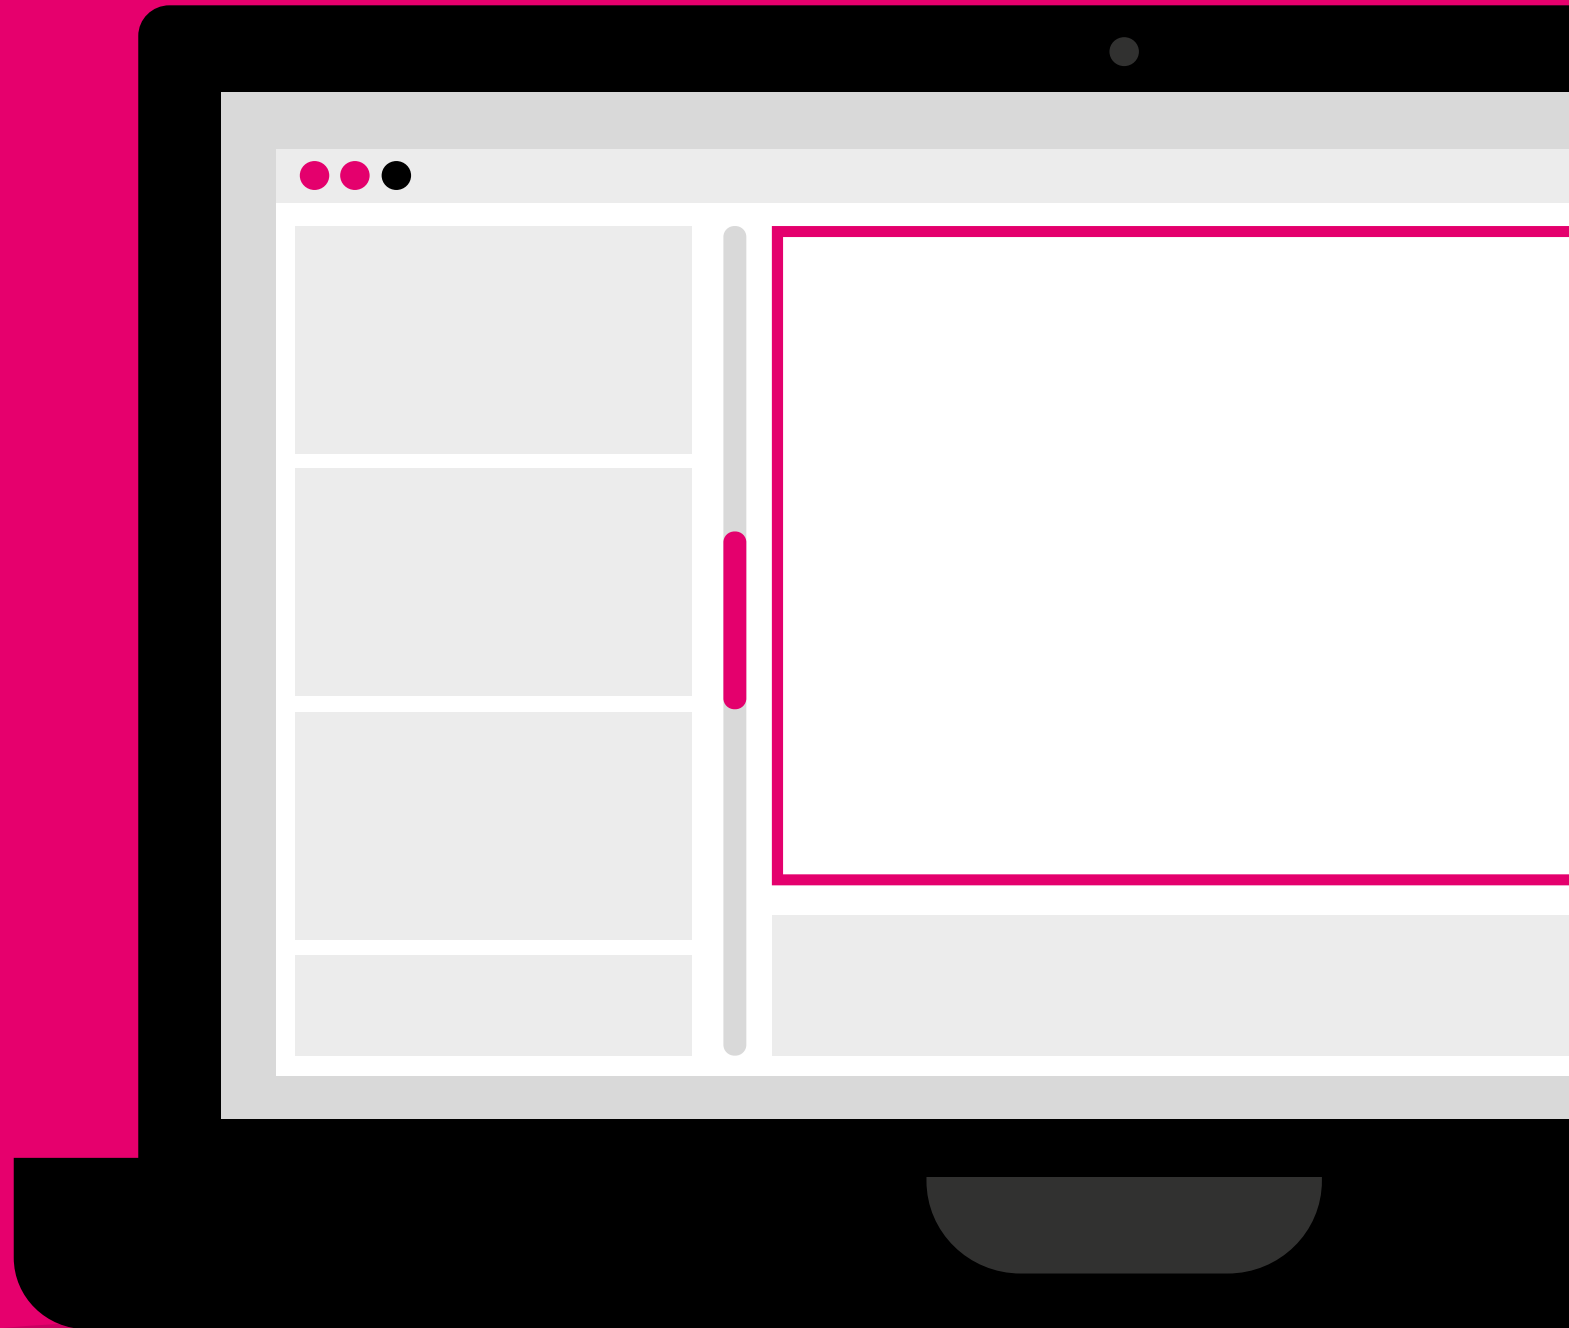

The tech

When we've developed your story, we'll build your presentation in whatever format is most appropriate.

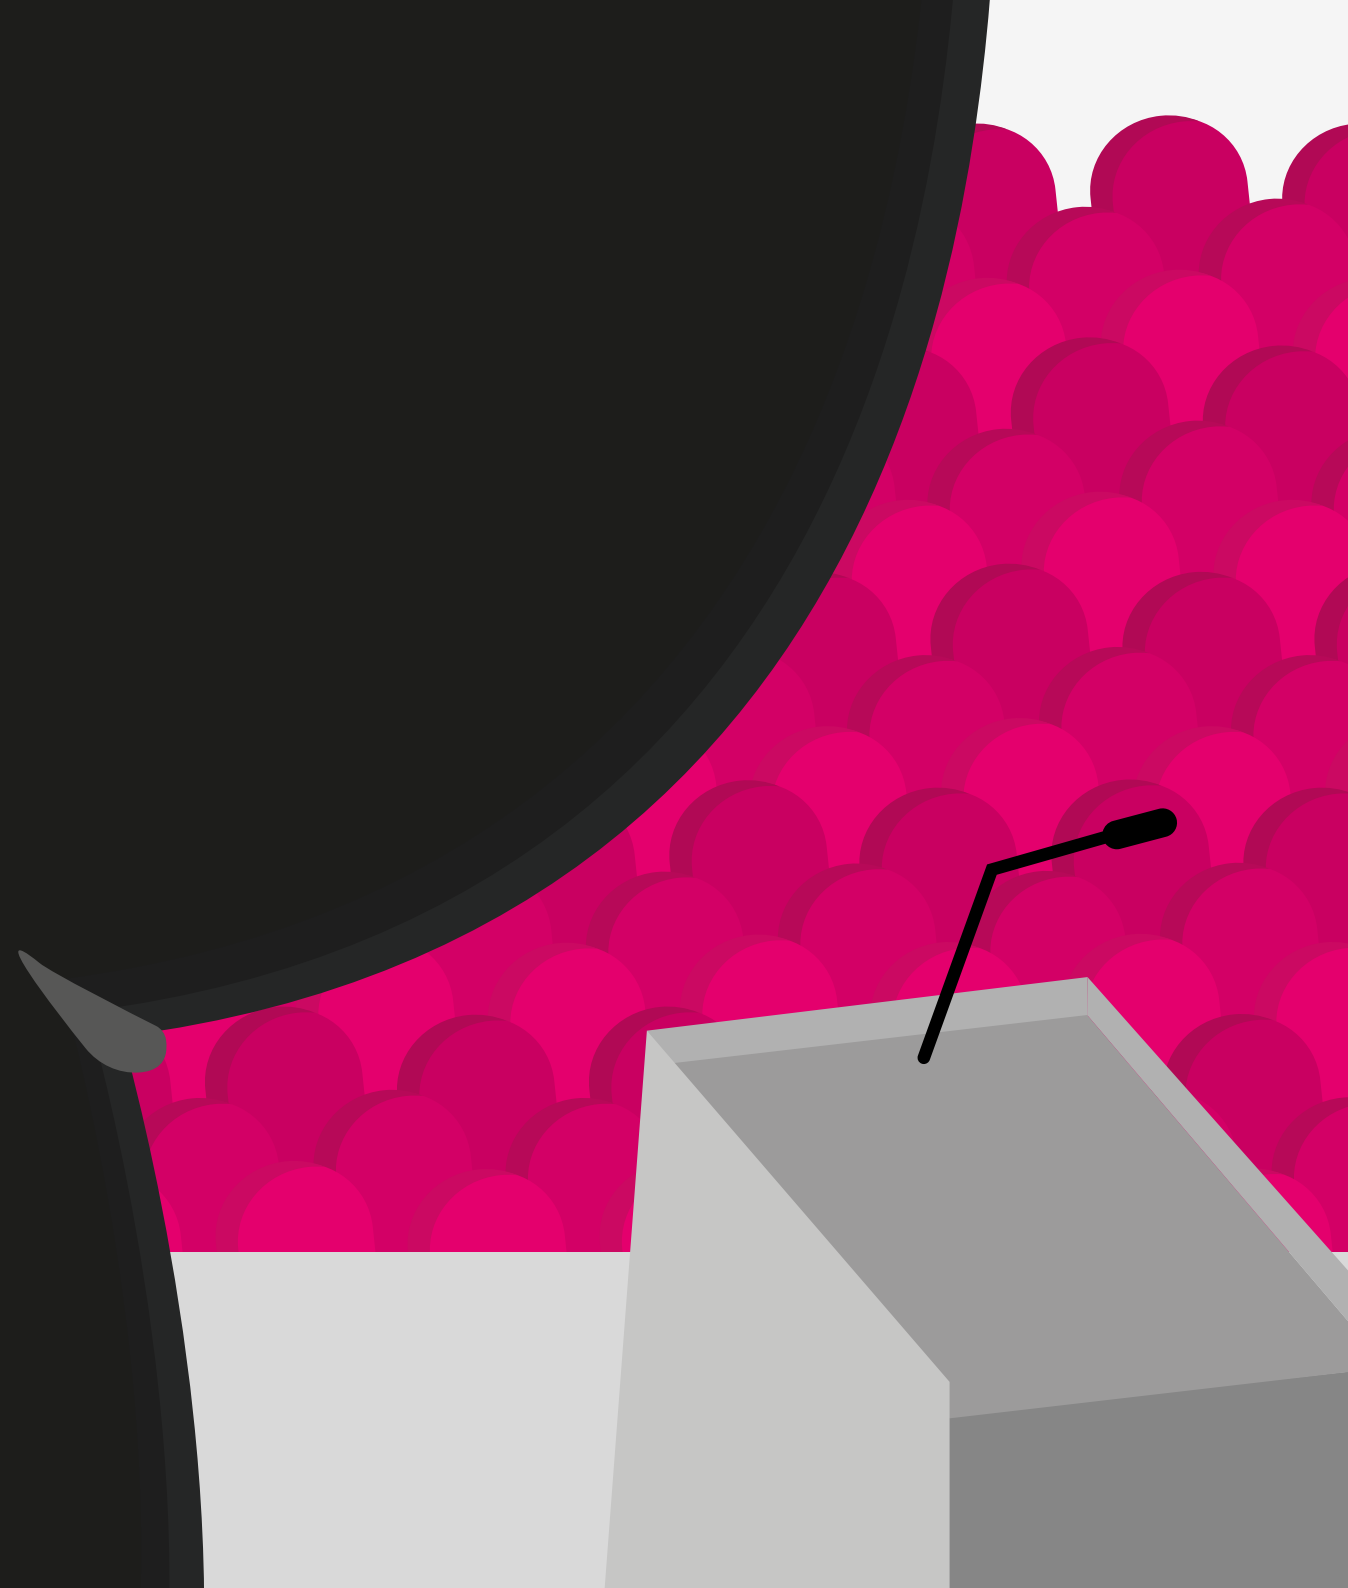

PowerPoint, Keynote and Prezi – or video, animation and audio. Even speaker notes.

Whatever you need to support your story, we'll take care of it.

We do things differently

What is your presentation about?

What three things should your audience remember?

How do you want people to feel after you talk?

If there's one perception or belief you'd like to change in your audience, what would that be?

How would you describe your personal presenting style?

If your talk was a movie, what would its strapline be?
